

I am a regular supporter of K-LOVE radio because of its continued commitment to play music that is encouraging, uplifting and morally sound. Much of the quality of our society has been lost due to the moral decay so prevalent in TV and on the radio. It is a tremendous benefit for those communities that can receive K-LOVE, because as a media provider, they have truly committed themselves to present only programming that influences people in positive ways. Please reconsider any actions that would put this station in jeopardy. Thank you for your consideration,

Kirk Riffel
